YB Datuk Seri Ismail Sabri Yaakob

Senior Minister of Defense

4 May 2021

In curbing the spread of COVID-19, the Government is **constantly re-evaluating** the Movement Control Order (PKP) directives especially in states that have recorded a sharp increase in COVID-19 positive cases.

This **ongoing reassessment is guided by an early warning system** - Hotspots Identification for Dynamic Engagement (HIDE), jointly developed by Bank Negara Malaysia (BNM) and the Ministry of Health Malaysia (MOH). This HIDE system enables the Government to take **proactive action** in controlling the spread of the COVID-19 epidemic. The Minister of Science, Technology and Innovation, YB Khairy Jamaluddin has already detailed the HIDE system.

To ensure no confusion, all decisions and announcements on the implementation of PKP in any area or state will be made by the **Federal Government after it is decided in the NSC meeting.**

Closing

Recently, the government has announced temporary sanctions on Indian travelers as well as incoming flights from India to the country to curb the spread of the new variant of COVID-19 from that country.

However, there are still parties who are not responsible by spreading the news that the government is still allowing incoming flights from India to Malaysia.

Many believed about the allegations but in the end, the broadcaster appeared to apologize for the misunderstanding.

With the COVID-19 contagion situation still at a high level, the government would like to remind the public not to spread untrue news that can affect the people and cause anxiety.

This includes its spread on social media, the WhatsApp application etc. regarding the government's stance to implement Movement Control Order (PKP) or 'total lockdown' such as that implemented on 18 March 2020 (MCO 1.0).

I myself receive a lot of WhatsApp posts asking about this. The spreading of news about 'total lockdown' is nothing new as it was previously done on all social media and other apps before the government implemented PKP 2.0

I warn people not to take opportunities like this, to grab as much attention, as this may create a sense of panic to the public.

Penutup

Baru-baru ini, kerajaan telah mengumumkan sekatan sementara ke atas pengembara warga India serta penerbangan dari India masuk ke negara ini bagi mengekang penularan varian baharu COVID-19 dari negara tersebut.

Namun, masih ada pihak tidak bertanggungjawab dengan menularkan berita kononnya kerajaan masih membenarkan kemasukan penerbangan dari India ke Malaysia.

Ramai yang percaya mengenai dakwaan itu namun akhirnya penyebar berkenaan tampil memohon maaf akibat salah faham

Dengan situasi penularan COVID-19 yang masih tinggi, kerajaan ingin mengingatkan orang ramai untuk tidak menyebarkan berita tidak benar yang boleh mempengaruhi rakyat dan sekali gus menimbulkan kegelisahan.

Ini termasuklah penularannya di media sosial, aplikasi WhatsApp dan sebagainya mengenai pendirian kerajaan untuk melaksanakan Perintah Kawalan Pergerakan (PKP) atau 'total lockdown' seperti yang mana pelaksanaan PKP 1.0 pada 18 Mac 2020.

Saya sendiri menerima banyak kiriman WhatsApp bertanyakan hal ini. Penularan berita mengenai 'total lockdown' bukan perkara baru kerana ia pernah disebarkan di semua media sosial dan aplikasi lain sebelum kerajaan melaksanakan PKP 2.0.

Saya mengingatkan orang ramai supaya tidak mengambil kesempatan seperti ini untuk meraih perhatian kerana ia boleh mendatangkan rasa panik kepada orang ramai.
