## **MEDIA STATEMENT**

# **EUROCHAM Malaysia Welcomes Government Decision on Stricter SOPs To Avoid Full Lockdown**

**Kuala Lumpur, 27 May 2021** — EUROCHAM Malaysia welcomes the recent decision of the Malaysian Government to enforce stricter SOPs in order to cope with the increasing number of COVID-19 infections, while not implementing a full lockdown. We recognize the challenges of balancing life and livelihood during these unprecedented times. In this context, the business community has and will continue to play a significant role in reducing the spread of the virus and flattening the curve.

EUROCHAM Malaysia and the business community in Malaysia are committed to flattening the curve and fighting the pandemic together with the Malaysian people and government. We are constantly enhancing our communication efforts with EU industry players to ensure that all SOPs have been understood by our members and thereby enable them to fully comply. In addition, we did and will continue to promote all vaccination opportunities to our community. Based on current feedback, EU businesses in Malaysia have been operating and adhering to the highest health and safety standards to avoid further workplace infections. Furthermore, companies continue to update and improve on their internal SOPs and communication with the respective Health Departments to ensure that the industry plays a positive and constructive role in breaking the chain for the safety and wellbeing of everyone involved. Many companies are encouraging their employees to consider signing up for vaccination and are part of promoting the vaccination programme of the government.

With above in mind, EUROCHAM Malaysia's recent donation of medical ventilators to the Ministry of Health is another notable initiative to help ease the burden on Malaysia's healthcare system. However, we also strongly believe in the acceleration of the vaccination programme of the government as well as swiftly implementing public private partnership models for vaccination procurement and delivery currently in discussion. The whole business community is willing to contribute and assist in accelerating the vaccination programme as much as possible.

## ABOUT EUROCHAM MALAYSIA

EUROCHAM Malaysia has been established since 1993 as chamber of chambers by several European Union (EU) bilateral chambers of commerce. It is the aim of the chamber to be the united voice of the EU business community in Malaysia as well as to facilitate trade and investment between Europe and Malaysia. With our goal to bolster business alliances for a prosperous EU-Malaysia partnership, we take pride in our diverse membership based on the EU bilateral chambers of commerce, associated chambers as well as direct corporate members from Europe and Malaysia.

EUROCHAM Malaysia functions as an umbrella for the following bilateral chambers of commerce and associate chambers.

### BILATERAL CHAMBERS :
